EDUCATION

K. J. Somaiya School of Engineering, Mumbai **2024 – 2028**
Bachelor of Technology in Information Technology **CGPA: 9.72/10**

PROFESSIONAL EXPERIENCE

AI Engineer Intern May 2026 – Jul 2026
InvestiGen *Remote*
- Developed an automated **AMFI mutual fund data pipeline** using Python and Pandas for data cleaning, Excel reporting, and PostgreSQL ingestion.
- Built a **SID/KIM Compliance Checker** extracting **170+ fields** from regulatory PDFs and validating **29 compliance rules**.
- Automated **Scheme Information Document generation** using Python and structured templates for multiple scheme types.

Software Engineer Intern May 2025 – Aug 2025
OrcaWise, Ireland *Remote*
- Contributed to **AI chatbot architecture and workflow design** using LangChain and FAISS.
- Collaborated with an **international engineering team** on feature development and application integration.

Core Team Member, Google Developer Group (GDG) Dec 2025 – Jun 2026
Co-hosted a Golang technical session and supported developer workshops.

Marketing Team Member, CodeCell KJSCE Aug 2025 – Present
Co-hosted technical onboarding for **500+ students** and supported industry outreach.

PROJECTS

SignalForge — AI-Powered Financial Research *BITS Pilani Hyderabad*
- Built an **AI-powered investment research workflow** analyzing annual reports, quarterly results, and exchange filings.
- Integrated **financial claim verification, evidence triangulation, and contradiction detection** to generate source-backed research insights.

Eureka — Multi-Agent AI Study Platform
- Developed a **React, FastAPI, PostgreSQL** platform with **4 LangGraph agents** for quizzes, flashcards, summarization, and study planning.
- Implemented **RAG with FAISS and HuggingFace embeddings** for PDF-grounded content generation.

FeetCode — Competitive Programming Platform
- Built a **full-stack accountability platform** with weekly coding challenges, token-based stakes, automated penalties, and progress tracking.
- Developed a **restricted-session Safe Browser** with domain whitelisting and password-protected exits using Electron.

Beneficiary Operations Platform — JPMorgan CFG
- Developed a **React/TypeScript platform** for beneficiary onboarding, eligibility checks, OCR-assisted document validation, and approval workflows.

RESEARCH EXPERIENCE

Distributed Query Processing and Optimization in Cloud Databases *Literature Survey*
- Co-authored a **12-page review of 26+ research papers**, comparing distributed query optimization, cloud architectures, scalability, and cost efficiency.

TECHNICAL & DOMAIN SKILLS

Financial Domain: Mutual Funds, AMFI Data, SID/KIM, SEBI Compliance, Investment Research
Programming & Analytics: Python, Pandas, SQL, Excel, C++, JavaScript, TypeScript
Backend & Databases: PostgreSQL, MongoDB, FastAPI, Flask, REST APIs, React.js
AI & Tools: LangChain, LangGraph, FAISS, HuggingFace, Git, GitHub

ACHIEVEMENTS & CERTIFICATIONS

- **Runner-Up, JPMorgan Chase Code for Good, Mumbai, 2026**
- **Finalist, Finding the Next Signal Quant Finance Research Hackathon, BITS Pilani Hyderabad, 2026**
- **Finalist, DataZen Case Study Competition**
- **NISM Series V-A Certified** – Mutual Fund Distributor
